# Empower Your Future Technion

Technion - Israel Institute of Technology is one of the world's leading universities in science, engineering and applied research. Technion prepares the future leaders and entrepreneurs who are reimagining our future and working to find solutions to challenging global problems.

## BSc in Engineering or Science for international students

- Start your degree in English, and transition to Hebrew after the first year
- Enjoy flexible study pathways tailored to your career interests and goals
- Benefit from personalized academic and social support, world-class facilities, and top-notch faculty

---

## Immersive 4-year degree

- Preparatory courses in mathematics, physics, and chemistry as needed
- Intensive Hebrew language study
- Foundational courses in physics, chemistry, mathematics and engineering
- Entry into engineering and science studies in a number of fields
- Opportunity to undertake a research or professional internship during the degree

## Jump-start your future career with a Technion degree!

### High-quality education:

Technion is ranked amongst the leading engineering and science universities in the world, providing students with a vibrant academic environment to develop their knowledge and interests.

### Kick-start your career:

Technion graduates are highly sought-after in many fields of high-tech and industry as well as by leading academic institutions around the world.

### Exceptional value:

Receive top-tier education at an affordable cost.

### Supportive environment:

Technion's comprehensive student support ensures that students thrive, both socially and academically. You'll enjoy personal guidance and year-round programs, trips, and activities for international students.

### Opportunities for new immigrants:

Students who make Aliya are entitled to generous state support for their studies and living expenses.
